

Willetton's Got Talent

Zentangle Artwork from Area 17 Year 6, students have been completing this type of artwork to explore the art elements of line, shape and Texture.

Area 15 – Reverse Acetate Self-Portraits

Our major art piece for this term was a self-portrait which explored many of the Art Elements including: colour, line and shape. We used a range of art materials to complete this art piece such as a clear acetate sheet, water colour and acrylic paint, markers and oil pastels. We hope you like them!

Back in Time

By Area 14
Years Four and Five

“Where am I?” muttered Bella.

Bella is a ten year old girl who LOVES to go on morning runs. One day, while she was out jogging, an extremely old door suddenly appeared on her front lawn.

On her way to school, Bella looked back and noticed that the mysterious door had completely disappeared!!

The next morning, on her jog, Bella found herself looking at the reappeared door which was slowly creaking open. It beckoned her to enter. Bella gathered all the courage she needed to bravely step through...

Bella found herself looking at a familiar house. A family, wearing old fashioned clothes, came out of the house and

climbed into a wooden carriage.

Scared and shocked, Bella hid behind a nearby tree. To

her amazement,

she realised the door had somehow taken her back in time...

Summoning all her courage, Bella stepped into the stone house. She noticed that the layout was oddly familiar. Before her eyes was a cupboard next to the stair case full of old fashioned coats and umbrellas.

Curiously looking around, something captured her eye. It was a black and white picture of a girl who looked just like her! Could this really be happening? Bella walked closer to the photo to check if it was just her imagination.

“Am I really in my house just back in time?” she wondered. All of a sudden, Bella heard the trotting of horses so quickly found a hiding spot.

Fear overwhelmed Bella. “Now what do I do?” She wailed. Luckily, brave Bella found the perfect moment to talk to the girl who looked exactly like her. After discovering she was her Great Great Grandmother, Bella needed time to recover from the shock. Martha introduced Bella to the family and she

settled in beautifully. One morning, while out for her daily run, the mysterious door appeared once again! Bella observed it slowly closing so realised she had to move fast. She sprinted inside for her phone to take a photo as proof of her incredible adventure, before stepping through the door just in time...
