

# Willetton Primary School BYO iPad Program 2024

# ICT in the Curriculum

---

ICT capability supports and enhances student learning across all areas of the curriculum. Students develop and apply ICT knowledge, skills and appropriate social and ethical protocols and practices to investigate, create and communicate, as well as developing their ability to manage and operate ICT to meet their learning needs.

Learning areas provide the content and contexts within which students develop and apply the knowledge, skills, behaviours and dispositions that comprise ICT capability.

# Responsibility and Security

## WPS BYOD iPad Program User Agreement 2024

This User Agreement is to ensure students using iPads enhance their learning in a safe, supported and secure environment. It is also to help keep each device secure, working properly and used in a productive and appropriate manner.

The use of social networking is not permitted during school hours. The youngest age requirement for social networking is 13 years of age, some are even older. Most social media sites set minimum age requirements. This is primarily for safety reasons as young children may be exposed to adult content which can be suggestive or inappropriate. Cyberbullying is also emerging as a devastating and destructive outcome for young children as well.

One of the programs WPS uses is [The Cyber Safety Project](#). If you would like more information, you can access the parent portal. More esafety resources include:

- eSafety commissioner- <https://esafety.gov.au/>
- Department of Communications- <https://www.cyber.gov.au>
