

Willetton's Got Talent

Languages – Indonesian

For Indonesian in Year 4, students designed a *rumah* (house); they practised labelling the *rumah* and used Bahasa Indonesia to write about the activities of family members in their *rumah*. Here are some of the houses with their talented interior designers.

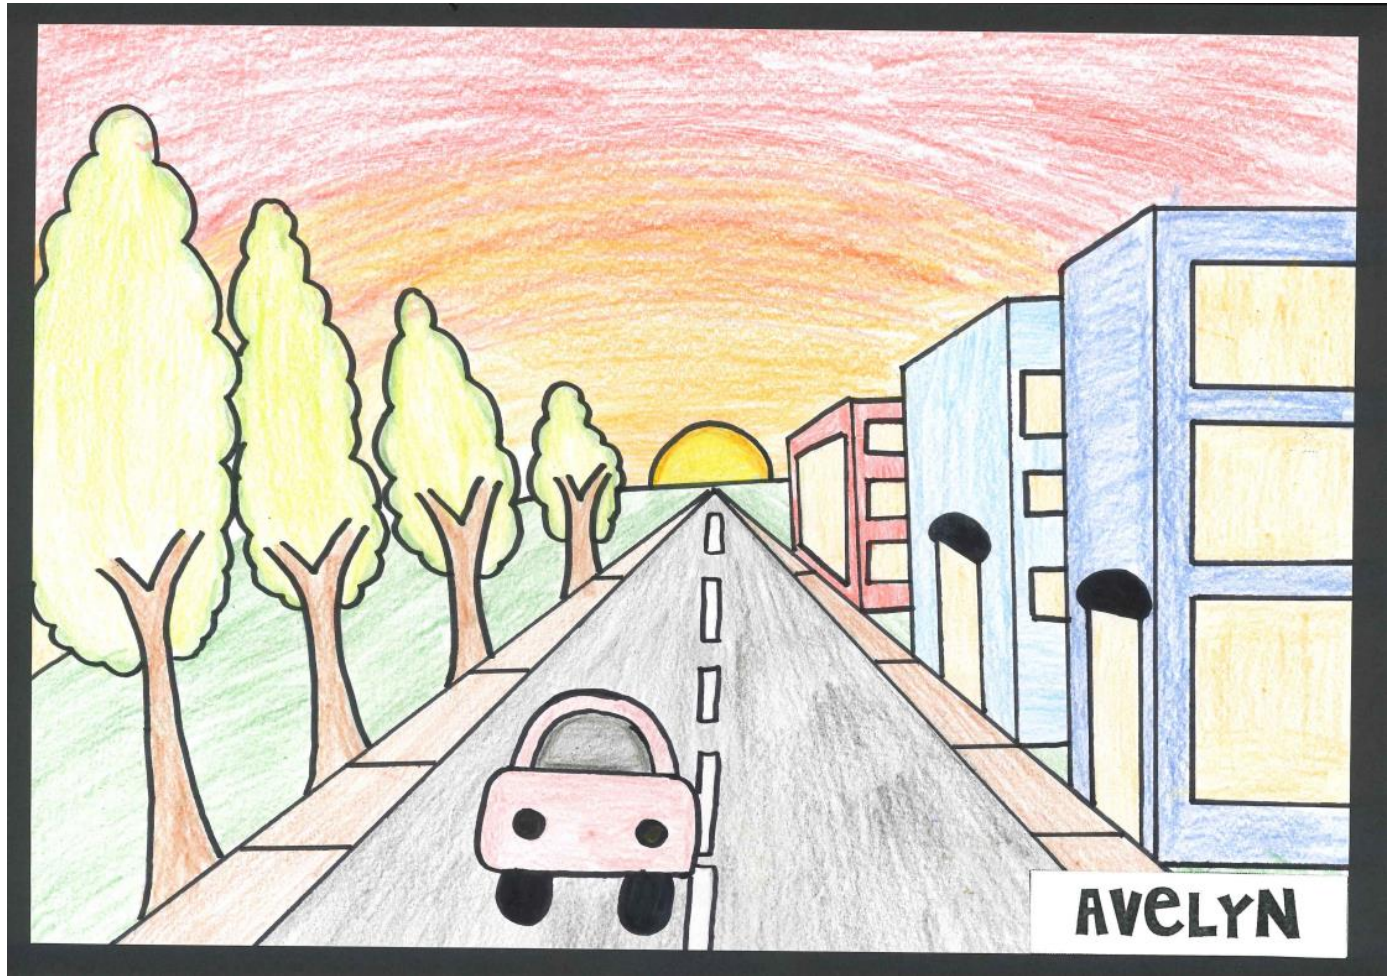

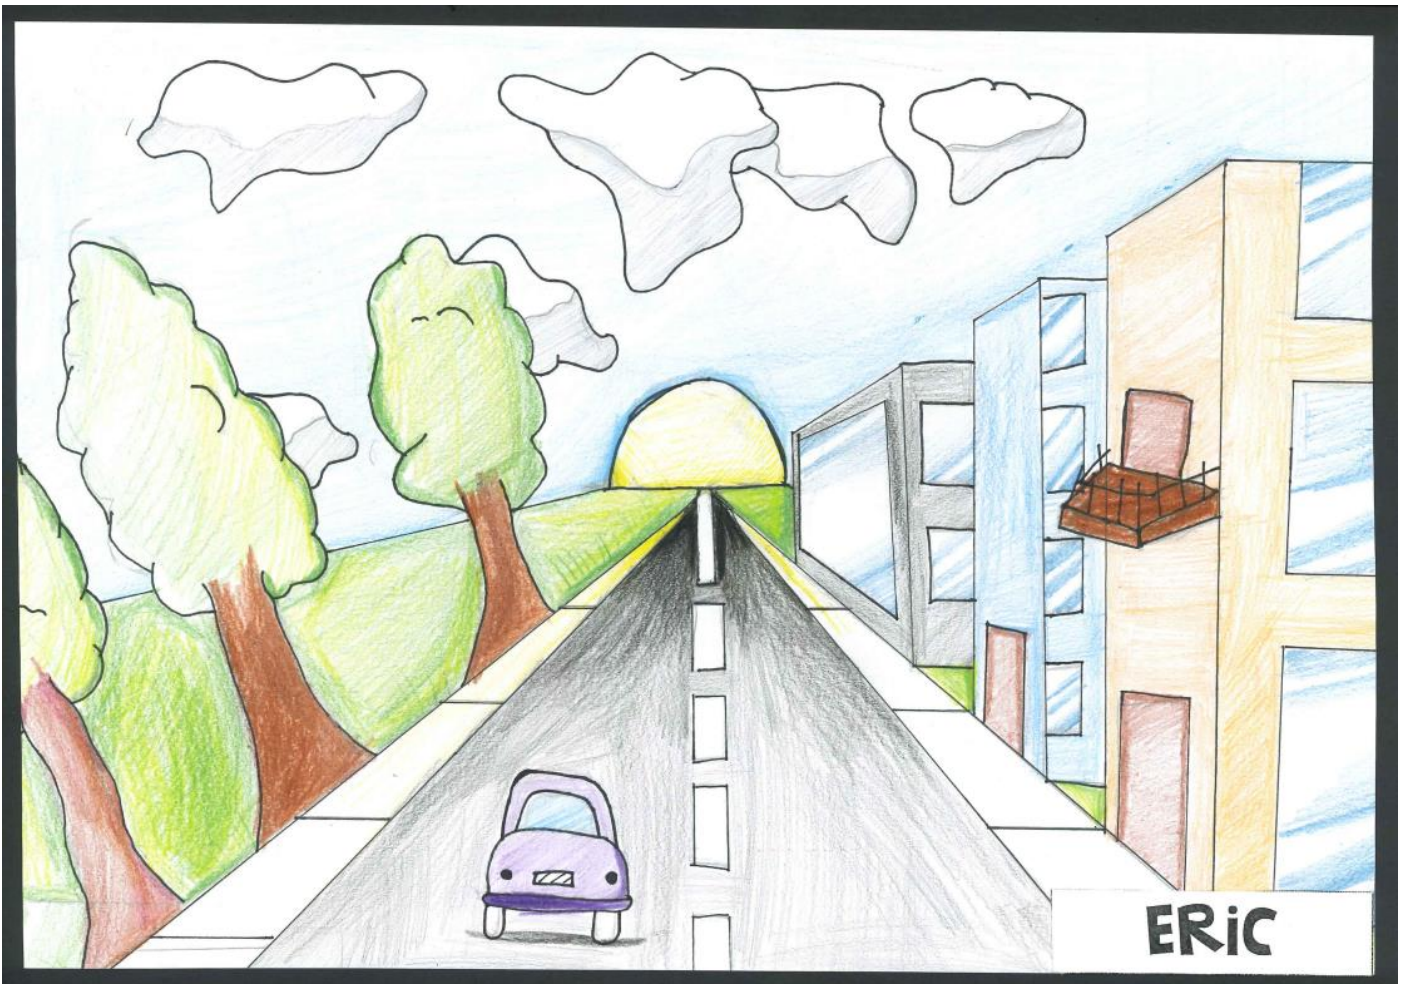

The Year 5s learned about names of places and prepositions and designed their very own Indonesia-inspired *kota* (town), complete with objects like *sawah* (rice field) and *warung* (street stalls).

Here are some of the towns with the talented town planners who designed them.
